

I am writing to support the K-LOVE radio broadcast. I listen to K-LOVE in Memphis, TN daily. It serves to help me start my day in a positive frame of mind. The music encourages me to live in a way that is not self-centered but loving and gentle of spirit.

K-LOVE is the only station that I am not embarrassed to listen to with my family. This station has a wonderful impact on the community by offering safe entertainment for children and families. I am very disturbed by the hate, self-centered, and sexually provocative, music and advertisements on other radio stations in my community. K-LOVE has been a blessing to my family and friends in this community who want to espouse morality in our children. If K-LOVE were displaced by another LPFM radio station my community would no longer have a clean, decent radio station. Our children would not have an alternative to the immoral music that has become increasingly popular. Parents would lose support behind their efforts to teach children right from wrong.

I believe that K-LOVE serves a very important role to the public. It provides a voice for many of us who want to restore decency to our lives and to our families. In my community K-LOVE is the only FM radio station that I can listen to with my friends and family without being embarrassed by lewd music or commentary. I ask that you keep K-LOVE on the air for our children!
